

# Employee Management System

---

Presented By  
Mansi Mishra  
Batch-4

Mentored By  
Piyush  
Prasad

# PURPOSE STATEMENT

## **WHAT ABOUT ADMIN?**

Admins oversee the entire system, managing employees, managers, attendance, leave applications, notices and projects. They can assign/unassign projects, approve/reject resource requests, and update or delete employee details.

## **WHAT ABOUT EMPLOYEE?**

Employees are key project contributors with limited access. They can update skills, raise request for leave, view their project and manager information, and see all other employees and managers.

## **WHAT ABOUT MANAGER?**

Managers oversee multiple projects and have the ability to view all employees, managers, and projects. They can filter employees by skills and availability and request unassigned employees from admins for their projects.

# Features Requested
